LUMINARY FLORAL FACIAL

An exquisite botanical facial infused with Rosa Damascena, Orange Blossom and Sage in a Hungarian facial massage style. Designed exclusively for Fleurs de Villes, this delightful facial treatment begins with a relaxing back exfoliation and heated rose oil application. The classic Hungarian facial massage in this experience lifts the facial muscles, promoting collagen production, while a rose and peony-scented face mask plumps the skin, leaving you feeling relaxed and radiant.

FLEURS GARDEN

Experience all the benefits of our hand-crafted hydrating Flower Body Wrap treatment. While enjoying a journey of wellness, escape with this sensory experience inspired by a garden of colorful flowers. The Flower Body Wrap offers a complete hydrating, cleansing, and rejuvenating experience with a full body exfoliation followed by a cleansing mask, leaving your skin reborn. The treatment includes a soothing and gentle scalp massage, topped with an extraordinary hot stones enhancement soaked with warm porcelain flower oil rich in minerals, to leave feeling completely rejuvenated, renewed and refreshed.

GRANDES ARTISTES

Immerse yourself in a truly rejuvenating experience with our exclusive Grandes Artistes massage. Begin with a serene full body exfoliation using specialized exfoliating gloves, followed by the highlight of this indulgent ritual - the application of melted body wax using a soft brush, followed by a deeply relaxing massage. The rich, nourishing melted body wax is meticulously applied to the skin, providing intense hydration and leaving your skin with a radiant glow, while the therapist's expert hands skillfully deliver a soothing massage, melting away any remaining tension and leaving you in a state of pure bliss.
